Dear Barbara:

I have reviewed your letter of 4 April 1983 to Thomas Wright concerning monthly progress. It appears as though there are no problems with your progress/recommendations made in the letter. I would like to inform you that we have just taken groundwater samples from the Tiverton Landfill in Tiverton and have also re-entered discussions with the attorneys representing J. M. Mills Landfill.

I have also completed a review of the Erris List submitted to us concerning Rhode Island sites. As a result, I am enclosing an additional list of sites which we feel should be included on the list for possible future study/remedial action. If you have any problems with updating this list, please contact me.

Very truly yours,

Frank B. Stevenson
